CERTIFIED PUBLIC ACCOUNTANTS & BUSINESS CONSULTANTS

Independent Auditors' Report

Board of Commissioners St. Louis Science Center Subdistrict of the Metropolitan Zoological Park and Museum District St. Louis, Missouri

Opinions

We have audited the financial statements of the business-type activities and the fiduciary activities of the St. Louis Science Center Subdistrict of the Metropolitan Zoological Park and Museum District (St. Louis Science Center), as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the St. Louis Science Center's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary activities of the St. Louis Science Center, as of December 31, 2022 and 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the St. Louis Science Center and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis Of Matter

As described in Footnote 2 to the financial statements, in 2022, the St. Louis Science Center adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. Our opinions are not modified with respect to this matter.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the St. Louis Science Center's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the St. Louis Science Center's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the St. Louis Science Center's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the schedule of changes in net pension liability and related ratios, the schedule of employer contributions, and the schedule of return on investments, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Louis Science Center's basic financial statements. The combining financial statements, as listed on the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

March 29, 2023

KulinBrown LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the St. Louis Science Center's financial performance provides an overview of the Science Center's financial activities for the years ended December 31, 2022, and 2021. The discussion and analysis should be read in conjunction with the financial statements.

2022 Financial Highlights

The net position totaled \$60,957,291 at the close of 2022; a decrease of \$873,175 (or 1%) from 2021.

Unrestricted net position increased \$1,347,146 (or 7%) from 2021. This increase reflects the release of restrictions on restricted resources and an increase in Property Tax revenue. See Table 1 - Net Position.

Total 2022 revenues decreased \$8,320,694 (or 30%) from 2021. In 2021, \$3,844,470 of SBA PP loans was forgiven and SBA awarded the Science Center \$5,046,870 under its Shuttered Venue Operators program.

Total expenses for 2022 increased \$2,412,343 (or 13%) from 2021. This increase is primarily from increases in labor costs, advertising and marketing, utilities, building repairs, and general inflationary price increases.

Total liabilities increased \$3,186,889 (or 28%) from 2021, as a result of the adoption of GASB No. 87 Leases and the increase in pension liability.

2021 Financial Highlights

St. Louis City COVID-19 capacity limits stayed in place until May 2021. The St. Louis Science Center worked in cooperation with the St. Louis Department of Health to monitor the operational plans. Daily attendance remained well below historical averages and negatively impacted revenue.

Net position totaled \$61,830,466 at the close of 2021; an increase of \$9,859,862 (or 19%) from 2020.

Unrestricted net position increased \$8,985,689 (or 87%). This increase reflects the major reduction in net debt. See Table 1 - Net Position.

Total 2021 revenues increased \$11,140,647 (or 67%) from 2020, primarily due to the forgiveness of \$3,844,470 in SBA PPP loans and the SBA Shuttered Venue Operators award of \$5,046,870.

Total expenses for 2021 decreased \$367,632 (or 2%) from 2020. Expenses were closely controlled to manage the operational impact of COVID-19.

Management's Discussion And Analysis (Continued)

Total liabilities decreased \$5,887,191 (or 34%) from 2020, as a result of a net decrease of borrowing under line of credit agreements and the forgiveness of the first PPP loan.

Using This Annual Report

This annual report includes financial statements, notes to those statements, and supplementary information. These statements are prepared and organized so the reader can understand the St. Louis Science Center as a single entity.

The St. Louis Science Center, because it is a special-purpose government entity engaged in a single program, presents only combined business-type activity financial statements as its basic financial statements. The Science Center reports its financial results as a single enterprise fund for financial reporting purposes. This means that it uses the full accrual method of accounting and considers its operations to be similar to those of a business-type activity. The St. Louis Science Center's defined benefit retirement plan is included as a pension trust fund.

Government-Wide Financial Statements

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position provide information about the activities of the entire Science Center. These two statements report the Science Center's total net position and the changes in net position. The change in net position is important because it is an important indicator in determining whether the overall financial position of the Science Center has improved or deteriorated during the year. Other factors however, such as changes in attendance and improvements in capital assets, also effect the financial position of the Science Center.

Combining Financial Statements

The combining financial statements beginning on page 51 separately report the activities of the St. Louis Science Center Subdistrict and the St. Louis Science Center Foundation. These two entities are discussed further in Note 2 of the financial statements. Both of these entities carry out various activities conducted by the Science Center and as discussed in Note 2, the Foundation is treated as a blended enterprise fund for financial reporting purposes.

The notes to the financial statements provide additional information that is essential to a full understanding of the data included in the basic financial statements.

Management's Discussion And Analysis (Continued)

St. Louis Science Center as a Whole

Table 1 provides a summary of the Science Center's net position for 2022, 2021 and 2020.

Table 1 - Net Position

	 2022	2021	2020
Assets			
Current assets and other assets	\$ 29,086,431	\$ 27,405,844	\$ 20,106,552
Capital assets	 45,532,501	46,537,299	49,351,017
Total assets	74,618,932	73,943,143	69,457,569
Deferred outflows	 1,244,400	111,192	369,581
Liabilities			
Current liabilities	3,436,374	2,706,638	3,263,208
Noncurrent liabilities	11,258,390	8,801,237	14,131,858
Total liabilities	14,694,764	11,507,875	17,395,066
Deferred inflows	 211,277	715,994	461,480
Net position			
Net investment in			
capital assets	37,785,726	37,927,804	36,928,151
Restricted	2,558,716	4,636,959	4,762,439
Unrestricted	20,612,849	19,265,703	10,280,014
Total net position	\$ 60,957,291	\$ 61,830,466	\$ 51,970,604

2022 and 2021

Net position invested in capital assets (which includes right-to-use leased assets net of lease liabilities) decreased by \$142,078 primarily due to \$895,000 of debt reduction, \$2,204,658 net fixed asset purchase activity and \$3,209,456 of depreciation.

The restricted net position, which represents resources that are subject to external restrictions on how those assets may be used, decreased \$2,078,243 in 2022 primarily due to a loss in investment revenue, payment of restricted pledges and a release in restrictions on resources.

Unrestricted net position increased by \$1,347,146 in 2022 primarily due to the release of restricted resources and increase in Property Tax revenue.

2021 and 2020

Net position invested in capital assets increased by \$999,653 primarily due to debt reduction of \$3,839,747 in 2021 and depreciation for the year of \$3,354,077.

Unrestricted net position increased primarily because of the SBA PPP loan forgiveness of \$3,844,470 and the SBA Shuttered Venue Operators Award of \$5,046,870.

Management's Discussion And Analysis (Continued)

Total expenses	20,327,738	17,915,395	18,283,027
Change in net position	\$ (873,175)	\$ 9,859,862	\$ (1,648,417)

2022 and 2021

Contributions result principally from the St. Louis Science Center's ongoing fundraising efforts. Property taxes represented approximately 69% of total revenues in 2022 and 44% of total revenues in 2021. Theater and other operating revenue include operations for which fees are charged (Omnimax Theater, planetarium, special exhibits, parking, restaurants, etc.).

Salaries and benefits are the St. Louis Science Center's largest expense totaling \$10,220,944 and \$8,762,096, respectively, or 50% and 49% of total expenses in 2022 and 2021, respectively.

Depreciation of the St. Louis Science Center's capital assets totaled \$3,209,456 and \$3,354,077 or 16% and 19%, of total expenses in 2022 and 2021, respectively.

Non-labor operating/supporting services include program and supporting services expenses. Program services include expenses incurred specifically to carry out the various programs and activities of the Science Center. Major program expense include film and exhibit costs, supplies for the various education and scientific programs and events. Supporting services are expenses incurred to support the overall operations of the Science Center. Supporting services costs include major expense such as marketing and communications, utilities, supplies, printing, insurance, and maintenance.

Non-Labor Operating & Supporting Services expenses increased \$1,129,277 or 20% in 2022. The largest expense increases relate to advertising and marketing, utilities, building repairs, and general inflationary price increases.

Management's Discussion And Analysis (Continued)

2021 And 2020

Contributions result principally from the St. Louis Science Center's ongoing fundraising efforts and special fundraising efforts. The increase in federal grants primarily relates to the SBA Shuttered Venue Operators grant of \$5,046,870. Property taxes represented approximately 44% of total revenues in 2021 and 73% of total revenues in 2020. Theater and other operating revenue include operations for which fees are charged (Omnimax Theater, planetarium, special exhibits, parking, restaurants, etc.). These revenues increased \$1,938,047 from 2020. 2020 Covid-19 closures and capacity limitations significantly reduced attendance and related income.

Salaries and benefits are the St. Louis Science Center's largest expense totaling \$8,762,096 and \$9,707,352, respectively, or 49% and 53% of total expenses in 2021 and 2020, respectively. 2021 salary and benefit costs reflect a full year of being open 5 of 7 days a week and the reduction in workforce due to revenue reduction related to COVID-19.

Depreciation of the St. Louis Science Center's capital assets totaled \$3,354,077 and \$3,683,242 or 19% and 20% of total expenses in 2021 and 2020, respectively. Depreciation decreased due to assets becoming fully depreciated.

Non-labor operating/supporting services include program and supporting services expenses. Program services include expenses incurred specifically to carry out the various programs and activities of the Science Center. Major program expense include film and exhibit costs, supplies for the various education and scientific programs and events. Supporting services are expenses incurred to support the overall operations of the Science Center. Supporting services costs include major expense such as marketing and communications, utilities, supplies, printing, insurance, and maintenance.

Non-Labor Operating & Supporting Services expenses increased \$1,007,412 or 22% in 2021. The 2020 program activities were limited due to Covid-19 restrictions.

Budget

St. Louis Science Center is treated as a single enterprise fund for financial reporting purposes; therefore, no budgetary analysis is presented here.

Management's Discussion And Analysis (Continued)

Table 3 - Capital Assets

	2022	2021	2020
Land and land improvements	\$ 15,333,458	\$ 15,333,458 \$	15,382,262
Building and building improvements	67,101,427	66,819,514	68,585,909
Equipment, exhibits and collections	44,266,649	44,494,108	48,091,419
Construction in progress	3,088,584	1,439,396	1,686,706
	129,790,118	128,086,476	133,746,296
Less accumulated depreciation	(84,257,617)	(81,549,177)	(84,395,279)
Net capital assets	\$ 45,532,501	\$ 46,537,299 \$	49,351,017

On December 31, 2022, net investment in capital assets (which includes right-to-use leased assets net of lease liabilities) totaled \$37,785,726 (net of outstanding notes payable of \$7,820,000 used to finance the construction of certain capital assets and the related deferred amount on bond refunding of \$79,130). There were net capital asset additions of approximately \$2,204,658 during the year. These additions included a new roof as well as ongoing replacements and normal additions of equipment and other exhibits.

Additional information on the Science Center's capital assets can be found in Note 6 of this annual report.

Debt

The Science Center has \$7,820,000 of bonds outstanding. \$9,440,00 of tax-exempt 2014 Series A and B bonds were originally issued in connection with the refinancing of the St Louis Science Center's 2005 bonds.

The Series 2014A bond proceeds were used to provide for all future debt service payments on the Series 2005 Bonds and to pay for related bond issuance costs. As a result, the Series 2005 bonds are considered defeased in substance and the notes payable to the IDA for those bonds have been removed from the accompanying financial statements.

The Series 2014A Bonds bear interest at 2.63% and are being repaid at approximately level annual debt service until final maturity in November 2025. The Series 2014A Bonds outstanding as of December 31, 2022, total \$2,820,000. The total amount drawn on the Series 2014B Bonds as of December 31, 2022, is \$5,000,000.

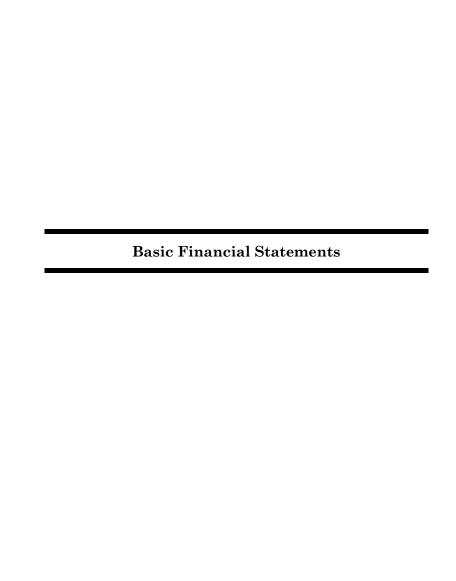

Management's Discussion And Analysis (Continued)

The St. Louis Science Center Foundation has a revolving line-of-credit to borrow up to \$5,000,000 for general use. The line-of-credit matures on December 1, 2023. The outstanding balance on December 31, 2022, is \$0.

Additional information on the Science Center's notes payable can be found in Note 7 and Note 8 of this annual report.

Contacting The Science Center's Financial Management

This financial report is designed to provide a general overview of the St Louis Science Center's finances and to help demonstrate the St Louis Science Center's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, St. Louis Science Center, 5050 Oakland Avenue, St. Louis, Missouri 63110.

NOTES TO FINANCIAL STATEMENTS December 31, 2022 And 2021

1. Description Of Organization

History

The Academy of Science of St. Louis was founded in 1856 as the first scientific organization west of the Mississippi River. The Academy founded the Museum of Science and Natural History in 1959.

Pursuant to a public vote in 1971, the Museum of Science and Natural History became a subdistrict of the Metropolitan Zoological Park and Museum District (the "District"). Partial funding for the museum comes from a continuous appropriation by the City of St. Louis and St. Louis County from property taxes levied on behalf of the St. Louis Science Center Subdistrict (the "St. Louis Science Center" or the "Subdistrict"). The St. Louis Science Center has no authority to levy taxes on its own.

In 1984, the museum acquired the McDonnell Planetarium from the City of St. Louis. Following a renovation, the building reopened July 20, 1985 as the St. Louis Science Center.

On November 2, 1991, the St. Louis Science Center expanded with the opening of the current main building.

2. Summary Of Significant Accounting Policies

The significant accounting policies followed by the St. Louis Science Center are described below.

Reporting Entity

The St. Louis Science Center's reporting entity includes all component units for which the St Louis Science Center's governing body is financially accountable. A governmental entity is financially accountable if it appoints a voting majority of a component unit's governing body and is able to impose will on that potential component unit or the relationship has the potential for creating specific financial benefits to, or imposing specific financial burdens on, the primary government. The St. Louis Science Center's financial reporting entity consists of the Subdistrict and its two component units: the St. Louis Science Center Foundation and the St Louis Science Center Employees' Retirement Plan.

Notes To Financial Statements (Continued)

The St. Louis Science Center Foundation ("Foundation") was incorporated in 1988 as a not-for-profit organization whose purpose is to support the Subdistrict. The Foundation is exempt from federal income tax under Internal Revenue Code Section 501(c)(3). Separate audited financial statements are not prepared for the Foundation. The Foundation is included in the St. Louis Science Center's financial reporting entity because it is governed by members of the Subdistrict's Board and its activities are for the sole benefit of the Subdistrict. As such, the balances and transactions of this component unit are blended into the basic financial statements and combined with the business-type activities of the Subdistrict.

The condensed combining financial information for the Subdistrict and Foundation as of December 31, 2022 is as follows:

Notes To Financial Statements (Continued)

The St. Louis Science Center Employees' Retirement Plan (the Plan) is a single employer, defined benefit pension plan, as discussed further in Note 11. The Plan is a legally separate trust. The Plan is included in the St. Louis Science Center's financial reporting entity because it is governed by members of the Subdistrict's Board, and the St. Louis Science Center has a financial burden related to the Plan because it is legally obligated to make contributions to the plan in order to provide future benefits to St Louis Science Center employees.

In accordance with GASB Statement No. 84, *Fiduciary Activities*, the balances and transactions of this component unit are presented in a separate fiduciary fund (the Pension Trust Fund).

Basis Of Presentation

The financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

Measurement Focus And Basis Of Accounting

The basis of accounting refers to when revenues, expenses, and related assets and liabilities are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. For financial reporting purposes, operations of the business-type activities are reported as a single enterprise fund and, all interfund transactions and balances are eliminated. Under the accrual basis of accounting, revenues are recognized when earned, and expenses are recognized when the related liability is incurred. The measurement focus is on the flow of economic resources. All assets and liabilities associated with the operation of the St. Louis Science Center are included on the statement of net position.

Revenues and expenses of business-type activities are divided into operating and non-operating items. Operating revenues generally result from providing services and producing and delivering goods in connection with principal ongoing operations. Revenues from admissions, merchandise and other sales, parking, and member contributions are reported as operating revenues. Operating expenses include primarily the costs of providing program services, administrative expenses, and depreciation on capital assets. All revenues and expenses which are capital-, financing-, or investing-related are reported as nonoperating revenues and expenses or in their own category in the Statement of Revenues, Expenses and Changes in Net position.

Partial support from the District through property taxes, as described below, is derived from City of St. Louis and St. Louis County. These revenues are not generated from operations and are reported as nonoperating revenues. Admission charges are not collected by the St. Louis Science Center.

Notes To Financial Statements (Continued)

The financial statements of the Pension Trust Fund have been prepared using the accrual basis of accounting. Benefits and refunds are recognized when due and payable. Investments are reported at fair value.

Partial Support From The District Through Property Tax Revenue

The St. Louis Science Center recognizes the support in the period in which the taxes have been levied by the District, net of the District management fee and an allowance for uncollectible accounts.

Taxes are levied annually on November 1 and payable by December 31. All unpaid taxes become delinquent on January 1 of the following year. Taxes are collected by the City and County and remitted to the District on a monthly basis. Amounts collected by the District are then transferred to the Subdistrict as expenses become payable.

Some taxes ultimately may not be collected so, an allowance for uncollectible taxes is recorded. Increases in the allowance are recorded by a provision for uncollectible taxes charged to expense. Estimating the amount of uncollectible taxes is necessarily subjective. The allowance is maintained by the Subdistrict at a level considered adequate to cover uncollectible taxes currently anticipated, based on past experience and other general, economic, and political factors.

Revenue Recognition

The St. Louis Science Center recognizes marketing and communication, education, exhibits, and program revenues at the point of sale or when the program is provided. Parking and members' contributions are recognized as revenue when received.

The St. Louis Science Center recognizes operating and capital grants and contributions, including unconditional promises to give due in future periods, when all eligibility requirements, including time requirements, are met.

Cash And Investments

Cash and short-term investments include bank checking accounts, certificates of deposit, and U.S. treasury and agency obligations. Restricted cash and investments, held primarily by the Foundation, consist of investments in U.S. treasury and agency obligations held in trust, with maturities less than one year; money market mutual funds; and equity and fixed income mutual funds.

Investment income includes interest and dividends earned and the change in the fair value of investments.

Notes To Financial Statements (Continued)

Capital Assets

Capital assets are recorded at historical cost. Donated items are recorded at acquisition value at the date of donation. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets as follows:

Buildings 20 to 60 years
Furniture, fixtures and equipment 5 to 20 years
Exhibits 3 to 20 years

Capital amounts are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year.

Expenses for maintenance, repairs, and minor renewals are charged to operations as incurred. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the respective accounts, and the resulting gain or loss, if any, is included in operations.

Leases

During 2022, the St. Louis Science Center implemented GASB Statement No. 87, *Leases*. The implementation of this statement had no impact on the St. Louis Science Center's beginning-of-year net position.

For arrangements where the St. Louis Science Center is a lessee, a lease liability and an intangible right-to-use (RTU) asset are recognized at the commencement of the lease term. RTU assets represent the St. Louis Science Center's intangible right-to-use underlying assets for the lease term and lease liabilities represent the St. Louis Science Center's obligation to make lease payments arising from the lease. RTU assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

For arrangements in which St. Louis Science Center is the lessor, a lease receivable and a deferred inflow of resources is recognized at the commencement of the lease term. The lease receivable is measured at the present value of the lease payments expected to be received during the lease term. The deferred inflows of resources should be measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relates to future periods.

The discount rates are based on estimates of the St. Louis Science Center's incremental borrowing rate to calculate the present value of lease payments when the rate implicit in the lease is not known. The St. Louis Science Center includes lease extensions in the lease term, if after considering relevant economic factors, it is reasonably certain that the St. Louis Science Center will exercise the option. The St. Louis Science Center has elected to combine lease and non-lease components for all lease contracts and also has not recognized RTU assets and lease liabilities for lease terms for 12 months or less.

Notes To Financial Statements (Continued)

Deferred Outflows Of Resources

The statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period or periods and will not be recognized as an outflow of resources until then. The St. Louis Science Center has a deferred loss on refunding reported in the statement of net position. A deferred loss on refunding is the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. This item has been reported as deferred outflows on the statement of net position. The pension-related items relate to certain actuarial differences and changes that are amortized over future periods.

Deferred Inflows Of Resources

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and will not be recognized as an inflow of resources until then. The pension-related items relate to actuarial differences and changes that are amortized over future periods. The lease related item is rental income that will be recognized over future periods.

Paycheck Protection Program Loans

In 2020, the Foundation received a loan in the amount of \$1,922,200 that was part of the Paycheck Protection Program (PPP) established under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and administered by the U.S. Small Business Administration (SBA). During 2021, the Foundation received an additional PPP loan in the amount of \$1,922,270.

In accordance with the requirements of the CARES Act, the Foundation used the proceeds from the loans exclusively for qualified expenses under the PPP, including payroll costs, mortgage interest, rent and utility costs, as further detailed in the CARES Act and applicable guidance issued by the SBA. The Foundation considered the PPP loans to be debt, subject to the provisions of GASB Statement No 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees.

During 2021, the Foundation received forgiveness of all principal and interest on both loans. The Foundation reduced the full liability and recorded a gain on extinguishment during 2021.

Notes To Financial Statements (Continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net Position is classified as follows:

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted Expendable - the component of net position that reports the difference between assets and liabilities of certain programs whose use is subject to externally imposed stipulations that can be fulfilled by actions of the St. Louis Science Center.

Restricted Nonexpendable - the component of net position that also reports the difference between assets and liabilities of certain programs subject to externally imposed stipulations that the assets be maintained permanently.

Unrestricted - the difference between the assets and liabilities that do not meet the definition of restricted or net investment in capital assets.

When both restricted and unrestricted resources are available for use, it is the St. Louis Science Center's policy to use applicable restricted resources first, then unrestricted resources as they are needed.

Use Of Estimates

The St. Louis Science Center's financial statements conform with accounting principles generally accepted in the United States of America and uses estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Notes To Financial Statements (Continued)

Investment Policy

Short Term Duration

Investments - Subdistrict

The policy states that its primary objective is to align the short duration investment portfolio with the organization's strategic spending policy and the projected need for such assets over the next one to three years. The Executive Management Team has adopted a "total return" approach to managing the portfolio. After consideration of facts, circumstances, cash needs and advice from the Investment Consultant (Commerce Trust Company), a target asset allocation has been adopted and will be reviewed periodically. Currently, short duration assets are invested in cash and cash equivalents. Permissible investments include US Treasury and Agency Debt. The duration of the portfolio assets is short-term, with expected maturities of 3 -15 months.

Notes To Financial Statements (Continued)

Investments - Foundation

The policy states that its primary objective is to align the short duration investment portfolio with the organization's strategic spending policy and the projected need for such assets over the next one to three years. The Executive Management Team has adopted a "total return" approach to managing the portfolio. After consideration of facts, circumstances, cash needs and advice from the Investment Consultant (Commerce Trust Company), a target asset allocation has been adopted and will be reviewed periodically. Currently, short duration assets are invested in cash and cash equivalents. Permissible investments include US Treasury, Agency Debt, certificates of deposit and institutional money market securities. The duration of the portfolio assets is short-term, with expected maturities of 3 -15 months.

Endowments And Pension

Investments - Subdistrict Endowment Investments

The long-term objective of the endowment held by the Foundation is to achieve a total return equivalent to or greater than the St. Louis Science Center's financial requirements set by the Investment Committee of the Board of Commissioners. The financial requirement is the sum of the spending rate, the expected long-term inflation rate, and any appropriate growth rate, reduced by the cost of portfolio management. The Investment Committee has adopted an asset allocation policy target of investing 60% of the endowment in equity, 35% of the endowment in fixed income, and 5% of the endowment in alternatives. Per Missouri statue, the fund is required to keep the original \$150,000 in US Treasuries. The spending policy is set at 5% of the average of the trailing three-year ending balance. This policy may be modified from time to time by the Investment Committee.

Investments - Foundation Endowment Investments

The long-term objective of the endowment held by the Foundation is to achieve a total return equivalent to or greater than the St. Louis Science Center's financial requirements set by the Investment Committee of the Board of Commissioners. The financial requirement is the sum of the spending rate, the expected long-term inflation rate, and any appropriate growth rate, reduced by the cost of portfolio management. The Investment Committee has adopted an asset allocation policy target of investing 75% of the endowment in equity, 20% of the endowment in fixed income, and 5% of the endowment in alternatives. The spending policy is set at 5% of the average of the trailing three-year ending balance. This policy may be modified from time to time by the Investment Committee.

Investments - Pension Trust Fund

The Plan's investment policies require the Pension Plan to invest in instruments that emphasize diversification across asset classes and are designed to give balance to the overall structure of the Pension Plan's investment program over the time horizon.

Notes To Financial Statements (Continued)

The policy's primary objective is to provide a rate of return sufficient to meet in perpetuity the obligations of the Pension Plan. The Investment Committee has adopted an asset allocation policy target of investing 67% in equity, 29% in fixed income, and 5% in alternatives.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. As noted under the investment policies, the St. Louis Science Center minimizes the risk to the value of its investments by investing unrestricted funds primarily in short-term U.S. government obligations and overnight repurchase agreements. At December 31, 2022 and 2021, the St. Louis Science Center held the following investments and maturities:

		_		De	cemb	oer 31, 20	22

Credit Risk

In accordance with the St. Louis Science Center's investment policies, investments are only permitted in the investment types noted above.

The Pension Plan's investment policy outlines permissible investments for the portfolio.

The risk of loss on investments in the endowment and Pension Plan is controlled by having the Investment Committee oversee the investments and by engaging an outside investment manager to invest the funds of the endowment and the Pension Plan in accordance with the guidelines and restrictions dictated by the respective policies.

Concentration Of Credit Risk

As noted under the investment policies, there is a limit on the amount of funds the St. Louis Science Center and the Plan may invest in any one issuer, except with respect to federal government securities. For the Plan, the policy dictates that an asset allocation plan be developed and rebalanced on a periodic basis. At December 31, 2022 and 2021, the concentrations of the St. Louis Science Center's investments were below 5%.

Custodial Credit Risk

For investments, custodial credit risk is the risk that in the event of the failure of the counterparty to a transaction, the St. Louis Science Center will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. Investments in securities are exposed to custodial credit risk if the securities are uninsured, not registered in the St. Louis Science Center's name and held by the counterparty. The St. Louis Science Center did not have any investments exposed to custodial credit risk at December 31, 2022 or 2021.

For deposits, custodial credit risk is the risk that in the event of bank failure, the St. Louis Science Center's deposits may not be returned to it. Protection of the St. Louis Science Center Subdistrict deposits is provided by the Federal Deposit Insurance Corporation (FDIC) and by eligible securities pledged by the financial institution. The Foundation does not have a formal policy related to custodial credit risk of deposits. At December 31, 2022, the Foundation's deposits in excess of the FDIC limits were \$2,174,143.

The Plan's investment policy does not address custodial credit risk.

Notes To Financial Statements (Continued)

4. Fair Value Measurement And Application

The St. Louis Science Center categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles pursuant to GASB Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The St. Louis Science Center has the following recurring fair value measurements as of December 31:

				2022

5. Pledges Receivable

Outstanding pledges at December 31, 2022 and 2021 are receivable from individuals, corporations, and other organizations. Pledges that are expected to be collected within one year are recorded at net realizable value. Pledges that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the pledges are received. Amortization of the discounts is included in contribution revenue.

Notes To Financial Statements (Continued)

Pledges are scheduled to be collected as follows:

Year	A	mount
2023	\$	92,000
Less: Allowance for uncollectible pledges		
	\$	92,000

As of December 31, 2022, the St. Louis Science Center does not have any conditional donor commitments.

Public Facilities Refunding And Improvement Revenue Bonds Series 2014

On December 4, 2014, in connection with financing a portion of improvements to the St. Louis Science Center and to advance refund the Series 2005 Bonds, the Industrial Development Authority of the City of St. Louis (the IDA) issued \$9,440,000 in Public Facilities Refunding Revenue Bonds, Series 2014A (Series A), and \$5,000,000 in Public Facilities Improvement Revenue Bonds, Series 2014B (Series B), and entered into a promissory note with the Foundation. The Series A Bonds bear interest at 2.63% and will be repaid at approximately level annual debt service until final maturity in November 2025.

The maturity dates, principal amounts, and interest expense amounts for the Series A Bonds are as follows:

Maturity	Principal Amount	Interest
2023	\$ 915,000	\$ 58,835
2024	940,000	36,794
2025	965,000	14,250
	\$ 2,820,000	\$ 109,879

Notes To Financial Statements (Continued)

The Series B Bonds bear interest at an adjustable rate, set at 2.22% as of March 2020, with interest payments due every 90 days. The interest rate is scheduled to reset on November 15, 2025 to 2.46%. Annual interest expense on the Series B Bonds is \$152,500 per year through 2025. The bonds may be redeemed without premium at any time before their maturity date, November 15, 2044. As of December 31, 2022 and 2021, \$5,000,000 was outstanding on the Series B Bonds. The principal outstanding on the Series B Bonds matures in 2044.

Deferred Amount On Refunding

As a result of the issuance of the Series 2014 Bonds, a deferred amount on refunding of \$290,138 was calculated related to the refunding of the Series 2005 Bonds. This amount was capitalized and reported as a deferred outflow of resources and is being amortized over 11 years, which was the remaining life of the new Series 2014 Bonds at issuance. The unamortized balance at December 31, 2022 and 2021 is \$79,130 and \$105,505, respectively.

8. Note Payable - Lines-Of-Credit

Subdistrict

The St. Louis Science Center has a working capital line-of-credit agreement with US Bank, to allow borrowing up to \$5,000,000 from February 1 of any year through June 30 of such year and up to \$7,000,000 with respect to any other period.

On November 1, 2022, the St. Louis Science Center signed a renewal agreement with US Bank to extend the maturity date to December 15, 2023. The unpaid balance bears interest at an annual rate equal to 1.25% above the Secured Overnight Financing Rate (SOFR) rate.

The line-of-credit was not used during 2022 or 2021. There was no outstanding balance at December 31, 2022 or 2021.

Foundation

On December 1, 2018, the Foundation entered into a revolving line-of-credit agreement with US Bank to allow borrowing up to \$10,000,000. The borrowing period extends through November 29, 2023. On November 1, 2021, the Foundation amended the original agreement to allow borrowing to \$5,000,000. The unpaid balance bore interest at an annual rate equal to 1.00% above the LIBOR rate. The balance outstanding at December 31, 2022 was \$0.

Notes To Financial Statements (Continued)

Financial Covenants

Under terms of the Series A, Series B and line-of-credit agreements, the St. Louis Science Center and Foundation are required to meet certain financial ratios, including a minimum fixed charge coverage ratio. During 2021, the St. Louis Science Center modified all of the agreements to waive the covenants related to the fixed charge coverage ratio until the quarter ended March 31, 2023. Apart from this waiver, the St. Louis Science Center and Foundation were in compliance with all covenants as of and for the years ended December 31, 2022 and 2021. In addition, as a part of the amendments, the St. Louis Science Center and the Foundation deposited \$1,320,400 with the lender as of January 31, 2022 for payment of future debt service.

9. Leases

Lessee

The St. Louis Science Center has entered into a building lease that expires in 2028. During 2022, the St. Louis Science Center paid \$274,943 in lease payments.

The following represents changes in the lease liability during the year and the future minimum lease payments required under the lease arrangements as of December 31:

Balance January 1, 2022	\$ 1,712,857
Additions	
Deletions	(274,943)
Balance December 31 2022	\$ 1,437,914

Year	Princ Amo	-	[nterest_
2023	\$ 265	,754 \$	13,142
2024	260	,875	10,529
2025	263	,497	7,907
2026	266	,143	5,261
2027	268	,817	2,587
2028	112	,828	282
	\$ 1,437	,914 \$	39,708

Right-to-use asset, net	\$ 14,125,456	\$	(280,848)	\$	_	\$ 1,432,009

Lessor

The St. Louis Science Center has entered into two arrangements to lease building space to others. The lease contracts expire at various dates through 2027. During 2022, the St. Louis Science Center received \$99,268 in lease revenue which represents the total amount of inflows of resources recognized in the reporting period from leases.

The following represents the future minimum lease revenue due under the lease arrangements as of December 31:

Year	Principal Amount	Interest Revenue		
2023	\$ 59,326	\$ 1,924		
2024	43,686	1,314		
2025	44,129	871		
2026	44,571	429		
2027	18,708	46		
	\$ 210,420	\$ 4,584		

10. Deferred Compensation Plans

The St. Louis Science Center offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The St. Louis Science Center also established a governmental retirement plan within the meaning of Internal Revenue Code Section 401(a), effective January 1, 2013, for the purpose of providing matching retirement benefits to employees. The plans permit them deferment a portion of their salary until future years. Participation in the plans is voluntary. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Subdistrict contributed \$248,554 and \$225,627 to the 401(a) plan in 2022 and 2021, respectively, and made no contributions to the 457 plan in 2022 or 2021.

Notes To Financial Statements (Continued)

St. Louis Science Center does not control the plan assets as defined by GASB Statement No. 84. The investments for the deferred compensation plans are not presented in the St. Louis Science Center's financial statements.

11. Pension Plan

Pension Plan description. The Plan is a single-employer defined benefit pension plan administered by the St. Louis Science Center. The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The St. Louis Science Center has the discretion to establish and amend benefit provisions. The Plan does not issue a publicly available financial report that includes financial statements and the required supplementary information.

Benefits provided. All full-time St. Louis Science Center employees commencing service prior to December 31, 2012 were eligible to participate after attainment of age 21 and one year of service. As of January 1, 2013, the Plan was frozen to new employees, as well as the accrued benefit at December 31, 2012, and shall not increase after that date due to additional benefit service, increased compensation, changes in covered compensation, or any other reason.

Benefits are fully vested after five years of service. A St. Louis Science Center employee who retires at the age of 65 with five years of credited service is entitled to a normal retirement benefit of 1% of average compensation plus 0.65% of average compensation exceeding the employee's social security-covered compensation, multiplied by service up to 30 years for compensation earned through December 31, 2012. Early retirement benefits are available at the actuarial equivalent of the normal retirement benefit.

At December 31, 2022 and 2021, membership in the Plan consisted of the following:

	2022	2021
Author and I amen	40	40
Active employees	48	49
Retirees and beneficiaries currently		
receiving benefits	75	75
Terminated employees entitled to benefits		
but not yet receiving them	181	180
Total	304	304

St. Louis Science Center did not accrue contributions as of December 31, 2022 and 2021, respectively.

Notes To Financial Statements (Continued)

Net Pension Liability

The St. Louis Science Center's net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2022:

Total pension liability	\$ 10,494,614
Plan fiduciary net position	7,330,634
Science Center's net pension liability	\$ 3,163,980
Plan fiduciary net position as a percentage of total	
pension liability	69.85%

The St. Louis Science Center's net pension liability was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2021:

Total pension liability	\$ 1	0,223,693
Plan fiduciary net position		9,272,493
Science Center's net pension liability	\$	951,200
Plan fiduciary net position		
as a percentage of total		
pension liability		90.70%

The total pension liability in the January 1, 2022 and 2021 actuarial valuation were determined using the following actuarial assumptions:

	2022	2021
Valuation date	January 1, 2022	January 1, 2021
valuation date	• ,	Entry age normal as a level
Actuarial cost method	Entry age normal as a level percentage of pay	percentage of pay
Asset valuation method	Market value of assets	Market value of assets
Actuarial assumptions		
Investment rate of return	7.5%	7.5%
Projected salary increases	4.5%	4.5%
Mortality	Pub-2010 General Tables;	Pub-2010 General Tables;
	Scale MP-2021 Fully	Scale MP-2020 Fully
	Generational	Generational

Notes To Financial Statements (Continued)

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation at December 31, 2022 and 2021 are as follows:

		December 31, 2022										
			Long Term									
	Target	Actual	Expected Rate	Arithmetic								
Asset Class	Allocation	Allocation	Of Return	Mean								
Equity securities	62%	66%	9.0%	6.0%								
Fixed income	27%	29%	5.0%	1.4%								
Alternative investments	4%	5%	2.0%	0.1%								
Cash	7%	0%	1.0%	0.0%								
	100%	100%	_	7.5%								

		December 31, 2021								
			Long Term							
	Target	Actual	Expected Rate	Arithmetic						
Asset Class	Allocation	Allocation	Of Return	Mean						
Equity securities	66%	67%	9.0%	6.0%						
Fixed income	30%	29%	5.0%	1.4%						
Alternative investments	3%	5%	2.0%	0.1%						
Cash	2%	0%	1.0%	0.0%						
	100%	100%	-	7.5%						

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2022 and 2021 was 7.50%. The projection of cash flows used to determine the discount rate assumed that Plan contributions would continue to follow the current funding policy. Based on those assumptions, the Plan's fiduciary net position was projected to be sufficient to make projected benefit payments, and pension plan assets are expected to be invested using a strategy to achieve that return.

Notes To Financial Statements (Continued)

Sensitivity Of The Net Pension Liability To Changes In The Discount Rate

The following presents the net pension liability of the St. Louis Science Center, calculated using the discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

		December 31, 2022										
	1%	Decrease		Current	1%	Increase						
Discount Rate		6.50%		7.50%	•	8.50%						
Net Pension Liability	\$	4,125,968	\$	3,163,980	\$	2,330,797						
		De	ecen	nber 31, 202	1

Net Pension Liability	\$	1,916,705	\$	951,200	\$	118,123						

Rate Of Return

For the years ended December 31, 2022 and 2021, the annual money-weighted rate of return on plan investments, net of plan investment expense, was (16.14)% and 12.62 percent, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts annually invested.

Pension Expense And Deferred Outflows Of Resources And Deferred Inflows Of Resources Related To Pensions

For the years ended December 31, 2022 and 2021, the St. Louis Science Center recognized pension expense of \$478,696 and \$114,597, respectively, after all deferred inflows and outflows of resources were accounted for. At December 31, 2022 and 2021, the St. Louis Science Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		202	22		2021					
-	Deferred		Deferred		De	ferred	Deferred			
	Outflows			$\mathbf{Inflows}$	Ou	tflows	$\mathbf{Inflows}$			
	\mathbf{Of}	Resources	Of Re	sources	Of Res	ources	Of Resources

Other changes - assumption changes		_				5,687				
·										
Total	\$	1,165,270	\$		\$	5,687	\$	715,994		

Notes To Financial Statements (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at December 31, 2022 will be recognized in pension expense as follows:

Year	Net Deferred (Outflows) Inflows Of Resources
2023	\$ 125,980
2024	274,383
2025	339,165
2026	425,742
	\$ 1,165,270

Contributions Receivable And Payable

There were no amounts receivable or payable to the Plan at December 31, 2022 or 2021.

12. Related Party Leases

The Foundation and the Subdistrict are parties to various leases with one another. Since the Foundation is a blended component unit of the Subdistrict, lease transactions between the Foundation and Subdistrict are eliminated before the financial statements of the Foundation are aggregated with those of the Subdistrict. As stated in GASB Statement No. 87, when the lessee or lessor is included as a blended component unit of the primary government, the reporting requirements of GASB Statement No. 87 do not apply.

The Foundation and Subdistrict are parties to a lease for the St. Louis Science Center facility. The term of the lease is for one year, and as of December 31, 2022, the Subdistrict has the option to renew the lease annually for up to 17 additional one-year terms.

During 2022 and 2021, the Subdistrict paid, and the Foundation received, rentals totaling \$2,000,000.

The Foundation and Subdistrict are parties to a lease for the property directly adjacent to the St. Louis Science Center. The term of the lease is for one year, and as of December 31, 2022, the Subdistrict has the option to renew the lease annually for up to 25 additional one-year terms. During 2022 and 2021, the Subdistrict paid, and the Foundation received, rentals totaling \$350,000.

Notes To Financial Statements (Continued)

The Foundation and Subdistrict are parties to a lease of the Planetarium and the area surrounding the St. Louis Science Center. The term of the lease is for one year, and as of December 31, 2022, the Subdistrict has the option to renew the lease annually for up to 23 additional one-year terms. During 2022 and 2021, the Subdistrict paid, and the Foundation received, rentals totaling \$1,920,000.

The Foundation and Subdistrict are parties to a lease for the property at 1100 Macklind Avenue. The term of the lease is for one year, and as of December 31, 2022, the Subdistrict has the option to renew the lease annually for up to 38 additional one-year terms.

During 2022 and 2021, the Subdistrict paid, and the Foundation received, rentals totaling \$234,000.

The Foundation's interest in the Subdistrict facility lease, the adjacent property lease, and the Planetarium lease are pledged to collateralize the Foundation's obligations to US Bank under the Series 2014 bonds (Note 7).

The Foundation and Subdistrict are also parties to a lease primarily for office and warehouse space under an annual renewable lease contract. Annual rentals under these contracts totaled \$327,900 in 2022 and \$300,825 in 2021, which the Subdistrict paid, and the Foundation received.

13. Management Agreement

Under the Foundation's Management Agreement with the Subdistrict dated July 1, 1990, the Subdistrict manages the St. Louis Science Center facility and revenue-producing activities, and the Foundation pays the Subdistrict a fee for its services. The annual fee in the amount of \$2,000,000 is intended to cover the operating costs associated with producing revenues for the Foundation.

Notes To Financial Statements (Continued)

14. Tax Abatements

Both the City of St. Louis and St. Louis County have entered into property tax abatement agreements with local businesses under various state statutes. Under these state statutes, the City and County may grant property tax abatements for the purpose of attracting or retaining businesses within their jurisdictions. The St. Louis Science Center Subdistrict allocated revenues were reduced under these agreements entered into by the City and County. County property tax allocated revenues were reduced by approximately \$150,000 for 2022, for taxes assessed on January 1 and payable by December 31 of the same year. Information regarding the City property tax allocated revenues were reduced by approximately \$142,000 for 2021, for taxes assessed on January 1 and payable by December 31 of the same year. City property tax allocated revenues were reduced by approximately \$227,000 for 2021, for taxes assessed on January 1 and payable by December 31 of the same year.

15. Commitments And Contingencies

Federal Financial Assistance

Most grants and cost-reimbursable contracts specify the types of expenses for which the grant or contract funds may be used. To date, the St. Louis Science Center has not been notified of any significant unallowable costs relating to its grants or contracts. In the opinion of management, adjustments for unallowable costs, if any, resulting from such audits would not be significant.

Litigation

From time to time, the St. Louis Science Center is party to lawsuits arising in the normal course of operations. While the results of litigation cannot be predicted with certainty, management believes that there is no such litigation that will have a material adverse effect on the financial statements of the St. Louis Science Center as of December 31, 2022.
